

Ordering meds and food

1. Go to our website: <https://www.vet2cat.co.uk/> and click on the tab “Order Food and Meds”

2. The next page will have a button saying - “Start here”, click this button.
3. Once the new page has opened, go to top right corner and click on “Account”.

4. If you have an account already made up, enter your details to login. If you do not, click “Create Account” at the top of the section. You need to enter your details and create a password to set up your account.
5. Once an account has been created, you can browse the online pharmacy for a new medication that have been advised by the vet or any repeat medications. There are also non-prescription supplements and foods available.

6. For example- if your cat is on Loxicom, search Loxicom in the search bar at the top of the page, click on the product and it will open the product options up for you.
